Na određenim stočnim pijacama evidentiran rast cena junadi i teladi

Protekle nedelje je za razliku od predhodnih nekoliko evidentirana dobra ponuda teladi, junadi i krava za klanje. I prodaja teladi posebno SM rase je bila na zavidnom nivou. U pogledu cena došlo je do rasta cene junadi i krava za klanje u proseku za 10 dinara po kilogramu.

Na stočnoj pijaci u Sremskoj Mitrovici su cene kod svih kategorija goveda uglavnom stagnirale. Zbog verskih praznika održavali su se vašari na kojima je zabeležena dobra ponuda prvenstveno teladi.

Ponuda i potražnja goveda na pijaci žive stoke u Čačku bila je prosečna. Zbog smanjenja stočnog fonda cene teladi su veće nego predhodne nedelje 220 do 260 din, krave za klanje su 90 din/kg Otkupna cena teladi u klanicama kao i predhodne nedelje i iznose od 200 din za ženska do 240 din/kg za muška

grla, dok su junad otkupljivala za 170 din/kg.

Na pijaci žive stoke u Loznici zabeležena je veoma slaba ponuda svih kategorija goveda a prodaja je bila još slabija.

U Kragujevcu kako na stočnim pijacama tako i u klanicama nema bitnijeg odstupanja cena goveda. Ponuda je bila prosečna, a što se kupovine tiče najbolji promet je ostvaren u kategoriji teladi.

Na ostalim pijacama žive stoke nije bilo značajnijih promena kako u pogledu cena tako i u pogledu ponude i tražnje goveda.

Slična situacija evidentirana je i u klanicama širom Srbije.

Cene prasadi, tovljenika i krmača varirale u zavisnosti od obima ponude i tražnje

Protekle sedmice klaničari pčinjskog okruga jedino prasad plaćaju nešto jeftinije nego prošle sedmice, dok su otkupne cene povećane tovljenike 2. klase 90-120 kg težine i tovljenike preko 120 kg težine. Inače, klaničari se žale da je stočni fond manji nego u prpteklih nekoliko godina i da taj trend opadanja zadržava, što im ne stvara probleme u snabdevanju tržišta još uvek, ali nisu sigurno dokle će tako i biti. Kažu da sami nemaju te mogućnosti da ulažu u razvoj kooperantskih odnosa sa farmerima jer to zahteva velika finasijska ulaganja, a nestabilnost tržišta im ne ide na ruku.

U Pančevu je na stočnoj pijaci evidentiran pad cene prasadi do 25 kg, dok su cene ostalih kategorija svinja nepromenjene. U odnosu na prošlu sedmicu malo je bolja ponuda prasadi obe kategorije. Nakupci preovlađuju u

ponudi, a promet svinja je bio jako slab. Za razliku pijaca u klanicama je došlo do rasta cene prasadi i tovnih svinja I klase uz standardnu ponudu.

U Loznici je ponuda prasadi bila jako dobra, a prodaja je bila na zavidnom nivou prvenstveno zbog kraja posta. U Klanicama - otkup svinja malo stagnira, a cene se ne menjaju. Klaničari navode da je prodaja svežeg mesa od porasta cena dosta opala.

U Čačku je zbog smanjenog obima ponude prasadi došlo do blagogo rasta cena prasadi pa je dominirao iznos od 170 dinara za kilogram. Cene tovljenika su kao i predhodne nedelje i to 130 din/kg za grla od 80-130 kg i 120 dinara za kategoriju preko 130 kilograma telesne mase. Ponuda i tražnja svinja je bila na prosečnom nivou.

Ponuda jagnjadi na zavidnom nivou dok je ponuda jaradi i koza slaba

Uobičajena ponuda svih kategorija ovaca na pijaci žive stoke u Čačku a i cene jagnjadi su bile kao predhodne nedelje i dominirao je iznos 150 din/kg, dok je najčešća otkupna cena iste kategorije ovaca u klanicama bila 170 din/kg.

Na stočnim pijacama i vašarima u okolini Sremske Mitrovici je zabeležena dobra ponuda jaganjaca dok je broj grla ostalih kategorija ovaca i koza bila slaba do prosečne.

Na Kraljevačkoj pijaci žive stoke je evidentirana vrlo slaba ponuda ovaca i koza prošle kao i predhodnih nekoliko

nedelja, što je posledica drastično smanjivanje stočnog fonda u raškom regionu i skupa stočna hrana.

Na pijaci u Obrenovcu je ponuda jagnjadi i ostalih kategorija ovaca bila dobra dok je ponuda koza i jaradi bila slaba. U poređenju sa predhodnom nedeljom došlo je do pada cene jagnjadi dok cene ostalih kategorija uglavnom miruju.

Na ostalim pijacama nema promena kako u pogledu cena tako i u pogledu ponude i tražnje ovaca i koza.

Agroinfo vesti

Žetva pšenice u Srbiji je završena, i očekuje se ukupan rod oko 2,1 milion tona, uz prosečan prinos od 4,2 do 4,3 t/ha, izjavio je Tanjugu saradnik u PKS-u, Branislav Gulan. Kvalitet ovogodišnjeg roda je za 15% bolji od prošlogodišnjeg, a prvi rezultati pokazuju da zrno sadrži 12,5 do 14% proteina i da je hektolitarska masa 80 do 86 kilograma, rekao je on i naveo da će biti dovoljno kvalitativne semenske pšenice za jesnju setvu. Cilj je da polovina njiva bude zasejana kvalitetnim semenom koje daje visoke prinose i na taj način će biti obezbeđena sigurnost u snabdevenosti pšenicom u narednoj godini, naglasio je on. Izvor:(Tanjug)

U Pomoravlju obilne kiše nije bilo od polovine juna, pa je zemlja na kojoj je zasejan kukuruz i krmno bilje, ponegde toliko ispucala da u pukotine može propasti noga, biljke se suše, dok na kukuruzu podgorevaju donji listovi, a pasulj ubrzano zri. Saradnik za ratarstvo Poljoprivredne stanice u Jagodini, Milanka Miladinovic, upozorava da nije samo kukuruz ugrožen, već i krmno bilje zasejano na 10.580 hektara, i to pre svega detelina, zatim povrce na 10.000 hektara i suncokret na 85 hektara. Navodnjavaju se samo neke sitne parcele uz reke i to individualno, pre svega, povrce, tako što ljudi "pobiju" u svoju baštu kolac sa crevom i postave prskalice, a to se ne može nazvati navodnjavanjem, kaže Miladinovic. - pad cena pšenice i kukuruza evropskim i severnoameričkim berzama.

Trgovina pšenicom je i ove nedelje u centru pažnje na Produktnoj berzi. Njeno trgovanje možemo podeliti u dva dela. Prvo je trgovina pšenicom JUS kvaliteta, gde se zaključena cena kretala od 15.35-15.70 din/kg bez PDV-a sa silaznim trendom kako je nedelja odmicala, a drugo je trgovina pšenicom prve A klase (tzv. poboljšivač) po ceni od 16.00 din/kg bez PDV-a. Nedeljna ponder cena pšenice JUS kvaliteta iznosi 15.42 din/kg bez PDV-a, što je blagi pad od 0.51% u odnosu na prethodnu nedelju. Tržište je i ove nedelje pokazalo totalnu nezainteresovanost za pšenicom prošlogodišnjeg roda, koja je ove nedelje nuđena po ceni od 16.50 din/kg bez PDV-a.

Kukuruzom se trgovalo u količini od 450 tona, po ceni koja se kretala od 14.90-15.00 din/kg bez PDV-a. Sam raspon trgovanih cena dovoljno govori o njenoj stabilnosti. Ponderisana ovonedeljna iznosi 14.98 din/kg bez PDV-a, što je minimalan rast od 0.59% u odnosu na prethodnu nedelju.

Pomenute robe nisu posebno izražene u strukturi prometa radi lakšeg poređenja sa prethodnim kada je promet ovih roba bio zanemarljiv.
