ŽIVA STOKA, ŽITARICE I STOČNA HRANA

Nedeljni pregled – govedarstvo		1
Na većini pijaca pad cene prasadi		2
Pregled cena žive stoke na stočnim pijacama		3
Cene žive stoke u klanicama		4
Prikaz cena stoke u EU		5
Kretanje cena žive stoke u Crnoj Gori		6
Izveštaj tima za praćenje žetve 2007.god.		7
Nedeljni prikaz cena žitarica i stočne hrane		8
Promet robe na produktnoj berzi u Novom Sadu		9
Evropske cene pšenice i kukuruza		10

Ponuda teladi, junadi i krava za klanje slaba

U Loznici je evidentirana jako slaba ponuda svih kategorija i rasa goveda zbog visokih temperatura poslednje nedelje i otežanog transporta grla. U klanicama ovoga regiona ponuda goveda je bila nešto bolja, kao i kvalitet a cene su nepromenjene u odnosu na 24 sedmicu.

Na pančevačkoj pijaci žive stoke promet je bio loš, jer je broj nakupaca bio veći od proizvođača, što je izazvalo nezadovoljstvo prodavaca. U klanici je evidentirana dobra ponuda junadi SM rase a cene se nisu bitnije menjale u poređenju sa predhodnom nedeljom.

U klanicama vranjskog okruga je nakon višenedeljnog mirovanja otkupnih cena došlo do promena, tako se telad 80-160 kg težine SM rase sada plaćaju 5 dinara skuplje, odnosno po 215 din/kg. Rast otkupne cene primetna je i kod junica koje se sada plaćaju 100 din/kg.

Na stočnoj pijaci u Čačku nastavlja se trend dobre ponuda goveda i cene su uglavnom ostale nepromenjene. U klani-

cama oko Čačka telad su se otkupljivala po ceni od 220 din/kg, junad do 300 kg telesne mase 125, a bikovi preko 480 kg klanice su plaćale 120 din/kg.

U kraljevačkom regionu cena teladi je u padu iz nedelje u nedelju i najveći broj grla ove kategorije goveda se na stočnoj pijaci ovog grada proda nakupcima iz Novog Pazara. Cene kao i ponuda i tražnja ostalih kategorija goveda su nepromenjene u odnosu na predhodnu sedmicu.

Prema izveštaju reportera STIPS-a nema značajnijih promena ni na pijaci žive stoke u Kragujevcu.

Na pijaci žive stoke u Obrenovcu nastavljen je trend slabije ponude goveda, a posebno junadi i krava za klanje. Razlog tome su veoma visoke temperature proteklih nekoliko dana i otežan transport krupne stoke. Cene uglavnom mirujum u poređenju sa prošlom nedeljom.

Na većini pijaca evidentiran pad cene prasadi

Iako je na stočnoj pijaci u Pančevu ponuda svinja bila raznovrsna najveći broj kvalitetnih grla prodavao se u kategoriji prasadi, a to je bio razlog za blagi pad cene prasadi do 15 kg. Promet svinja je bio jako loš i reporteri STIPS-a naglašavaju veliko nezadovoljstvo proizvođača i prodavaca svinja ovog regiona. U klanicama je evidentirana dobra ponuda tovih svinja I klase. Zabeležen je porast cene tovnih svinja II klase i preko 120 kg, dok su cene ostalih kategorija svinja ostale nepromenjene.

U Vranju nakon višenedeljne stagnacije otkupnih cena žive stoke, klaničari u vranjskom kraju izvesne vrste i kategorije stoke sada otkupljuju po drugačijim cenama. Tako, prasad do 25 kg težine - umesto 115 sada je cena samo 100 din/kg. Klaničari očekuju da od sledeće nedelje poraste i cena tovljenika, verovatno za 5-10 din/kg, iako to sa sigurnošću ne mogu da tvrde.

Na pijaci žive stoke u Loznici takođe je zabeležen pad cene prasadi sa 90 din na

80 din po kilogramu žive mere a ponuda je i više nego dobra. U Klanicama je ponuda stoke jako dobra, kao i kvalitet a cene su nepromenjene u odnosu na 24 sedmicu.

U Zrenjaninu se na stočnoj pijaci nude samo prasad za klanje ili dalji tov težine 20-25 kg po ceni od 80-90 din/kg, i ta cena je u padu, dok prasadi težine 10-15 kilograma uopšte nije bilo u ponudi. U klanicama nema promena u cenama, a ponuda je ostala nepromenjena u poređenju sa predhodnom sedmicom.

Na pijaci žive stoke u Čačku evidentirana je dobra ponuda, cene se nisu bitnije menjale, osim cene prasadi i sada je 80 do 90 dinara ali dominira cena od 80 dinara. Što se klanica tiče cena tovljenika je sada 70 dinara.

Na obrenovačkoj pijace je ponuda slabija zbog visokih temperatura, a pošto je ponuda prasadi do 15 kg bila slaba zabeležen je porast cene ove kategorije svinja za 10 din/kg.

AGROINFO VESTI

Ministarstvo poljoprivrede odobrilo je isplatu gotovo 1,9 milijardi dinara za finansiranje 16.313 kratkoročnih poljoprivrednih kredita. Krediti će biti isplaćeni podnosiocima koji su ispravne zahteve predali u sredu 20. juna, a odobrena sredstva biće već od ponedeljka na računima šest banaka.

Fabrika stočne hrane "Sto posto" u Velikoj Plani od registrovanih poljoprivrednih gazdinstava otkupila je do sada 1.500 tona ječma po ceni od 10,5 dinara za kilogram. To preduzeće otkupiće ukupno 2.000 tona ječma i isto toliko pšenice, za koju cena još nije saopštena.

Jagnjad najjeftinija u Kragujevcu

Treće nedelje juna ponuda i potražnja svih kategorija ovaca bila je ujednačena tako da ne beležimo promene dominantnih cena. Jagnjad su najčešće prodavana za 180 din/kg, najjeftinije 140 u Kragujevcu i najskuplje 200 din/kg u Pirotu i Vranju. Kao i predhodnih nedelja dominantna cena ovaca bila je 100 din/kg, najniža 85 u N.Sadu a najviša 120 din/kg u Loznici. Najčešća prodajna cena dviski iznosila je od 140 do 150 din/kg, šilježadi

150 din/kg a ovnova za priplod od 110 do 120 din/kg.

Dobra ponuda i slabija potražnja jaradi doprinela je padu cene za 20 din/kg tako da je dominantna cena bila 140 din/kg. Posle nekoliko nedelja gde smo beležili neznatne promene cene, protekle nedelje koze su ponovo najčešće prodavane za 70 din/kg.

Žitarice i stočna hrana

Izveštaj Tima za praćenje žetve 2007.

Kvalitet žita

(Republička poljoprivredna inspekcija)

Aktivnosti poljoprivredne inspekcije su intenzivirane prema planiranoj dinamici. Inspektori su angažovani na prijemnim mestima skladištara u cilju uvida u kvalitet pšenice novog roda i paralelnog uzorkovanja (kod jednog broja većih skladištara) u cilju provere načina određivanja parametara kvaliteta pri prijemu pšenice. Registrovane su prve količine uskladištene pšenice novog roda u količini od 144.769 tona. Žetva pšenice je intenzivirana u svim okruzima u Vojvodini dok u Borskom, Moravičkom, Rasinskom, Raškom, Pirotskom i Pčinjskom okrugu nije registrovano uskladištenje tržnih viškova pšenice u skladišta. U Kosovsko Mitrovačkom okrugu početak žetve se oče-

kuje između 4. i 5. jula 2007. godine (9 kombajna čeka početak žetve, a očekivana cena kombajniranja je 140 evra). U ovom trenutku nema evidentiranih prijavi vezanih za nepravilnosti u toku prijema. Započeto je intenzivno uzorkovanje merkantilne pšenice na prijemnim mestima skladištara i dostavljanje istih Institutu za prehrambene tehnologije u Novom Sadu (uzeto preko 80 uzoraka) u cilju utvrđivanja kvaliteta pšenice ovogodišnjeg roda.

Požnjevene površine, prinosi

(Institut za primenu nauke u poljoprivredi-Beograd)

Na dan 21.06.2007. godine, ječam je požnjeven sa 50,14% površina, pšenica sa 5,98%, a ostale strnine sa 6,03% površina.

Promet robe na produktnoj berzi u Novom Sadu od 18. do 22. juna 2007. godine

Na Produktnoj berzi u Novom Sadu nastavljen je dalji rast prometa, kako količinski (42.79%), tako i vrednosno (46.77%) u odnosu na prethodnu nedelju.

Ovu nedelju je svakako obeležio skok cene pšenice roda 2007., pre svega za promptnu isporuku. Cena se kretala od 10.80 din/kg sa PDV-om početkom nedelje, pa do 11.66 din/kg sa PDV-om krajem nedelje (10.00-10.80 din/kg bez PDV-a). Ponderisana nedeljna cena iznosi 11.23 din/kg sa PDV-om, što je rast od 3,98% u odnosu na prethodnu nedelju. Cena pšenice sa odloženom isporukom je sudeći po zaključenim ugovorima početkom nedelje imala stabilnu cenu (10.80 din/kg sa PDV-om), međutim sredinom nedelje se pojavila tražnja za količinom od 5.000 tona po ceni od 11.45 din/kg sa PDV-om, ali zainteresovanih prodavaca nije bilo. Zanimljivo je takođe da se krajem nedelje pojavila ponuda 100 pšenice sa promptnom isporukom po ceni od 12.10 din/kg sa PDV-om, ali ovog puta zainteresovanih kupaca nije bilo.

Shodno prethodnoj konstataciji, još jedna karakteristika prethodne nedelje je totalno odsustvo tražnje za pšenicom prošlogodišnjeg roda. Ponuđena je količina od 278 tona, po ceni od 11.60 din/kg bez PDV-a, ali zainteresovanih kupaca nije bilo.

Najveći obim prometa je ostvaren u trgovini ječmom, pre svega pivarskim. Cena pivarskog se kretala od 11.45-11.99 din/kg sa PDV-om, dok je cena stočnog ječma varirala u rasponu od 11.02-11.23 din/kg sa PDV-om.

Kukuruz, ove nedelje beleži rast cene. Vrlo je zanimljivo da je poslednja ovonedeljna zaključena cena iznosila 11.00 din/kg bez PDV-a, što je nivo s početka juna. Zaključena cena se kretala u rasponu 10.40-11.00 din/kg bez PDV-a. Ponderisana nedeljna cena beleži rast od 2,47% u odnosu na prethodnu nedelju.

Od tzv. ostalih roba izdvajamo trgovanje sojinom sačmom (26.31 din/kg sa PDV-om) i suncokretovom sačmom (14.75-14.87 din/kg sa PDV-om).

Na strani ponude izdvajamo NPK 15 :15 :15 po ceni od 23.76 din/kg sa PDV-om i zrna soje po ceni od 22.57 din/kg sa PDV-om.

Ukupan obim prometa u protekloj nedelji je iznosio 3.310 tona, što vrednosno iskazano iznosi 38.586.050,00 dinara.

Obim i struktura prometa u protekloj nedelji dati su u tabeli:

roba	Ponuđena količina (tona)	cena ponude din/kg sa PDV-om	zaključena količina (tona)	zaključena cena din/kg sa PDV-om
